Value:

Statistics have proven that almost 40% of visitors will abandon your page if it takes more than 3 seconds to load. All 10 of your loading times are over 3.0 seconds.

On-page SEO optimization is a pivotal strategy that directly enhances the visibility and effectiveness of your website, delivering substantial benefits to your business.

By meticulously refining the content and technical aspects of your web pages, you can significantly improve your site's ranking on search engine results pages (SERPs), leading to increased organic traffic. This optimization not only attracts more visitors but also targets those specifically searching for the products or services you offer, improving the quality of your traffic.

Another key benefit is the competitive advantage it offers. In highly saturated markets, having a well-optimized website can be the deciding factor that sets you apart from your competitors.

2. KEYWORD RESEARCH

Initial Keyword Research Report.

“Eco Earth Floor Care” had **0.00%** in the previous 90 Calendar days.

Keyword Research Report to date:

16.67% Growth

Value:

Keywords determine how and what the search engines rank you for.

By conducting keyword research and strategically implementing it, your business gains a competitive advantage in organic growth and greater control in reaching and engaging your desired audience.

This approach also offers flexibility, allowing you to adapt and pivot your strategies as needed.

Our Methodology:

By integrating "Office and Commercial" and "Vacation Rental" cleaning keywords into the client's cleaning website, we observed a 16.67% surge in organic keywords. This strategy involved embedding these specific keywords into crucial sections like title tags, meta descriptions, headers, and body content. We enhanced their effect through strategic internal linking, which bolstered keyword relevance and visibility on the website. To sustain this growth and remain competitive, we continuously refine our keyword strategy, adjusting based on performance analytics and evolving industry trends, ensuring our content stays relevant and highly ranked in search engine results.

4. SUMMARY: ✓

Dear Jim,

I am pleased to share with you the summary of the optimization services we have recently implemented for your website.

Website Design Enhancements:

We have strategically emphasized your **"Office and Commercial Cleaning"** and **"Vacation Rental Cleaning"** services. These are now prominently featured on the menu tab, the homepage slider, and within the services section, ensuring they catch the eye of potential clients right away.

Additionally, we've updated the content on your homepage to remove outdated references to COVID-19 services, presenting a more current and relevant offering to your visitors.

The contact buttons have been repaired and streamlined, making it easier for your customers to reach out to you, thus enhancing user experience and potential lead generation.

WEBSITE OPTIMIZATION REPORT

SEO Improvements:

Our focused SEO efforts have successfully increased your website's **SEO score to 91%**

AND your organic traffic by 57%

This significant improvement is anticipated to boost your visibility in search engine results, particularly for "Office and Commercial Cleaning" leads.

You can expect a gradual increase in organic traffic and, consequently, a growth in leads over time due to these optimizations.

It has been an absolute pleasure assisting you with these improvements. I am confident that these changes will contribute positively to your website's performance and business growth. Please feel free to contact me if you need further assistance or have any questions.

Best,

Brian
